

eSecurity Solutions + Trend Micro MDR Bundle

Add a cost effective MDR security upgrade to your existing security

Comprehensive MDR Managed Security Bundle (MDR & XDR + ASRM)

Get Expert MDR + Managed Security of Trend Micro XDR Solution Suite

What is the eSecurity Solutions + Trend Micro MDR Security Bundle?

This comprehensive security package includes MDR managed services for configuration, maintenance, security monitoring, and threat hunting for the **Trend Micro Worry-Free XDR solution suite**. Most vendors only offer security monitoring and threat hunting and do not configure or maintain the endpoint or email security solution. **eSecurity Solutions provides an end-to-end managed security service.**

Solution Definition

1. 24x7 MDR Managed services
2. Trend Micro licenses for the Worry Free XDR + ASRM Security Suite*

Interested in our MDR bundle? Get 24x7 managed security with expert protection—contact us.

24x7 MDR Security – Proactive Protection, Zero Gaps, Total Peace of Mind

Our 24x7 Managed Detection and Response (MDR) Services ensure your business stays protected against evolving cyber threats with continuous monitoring, expert threat analysis, and proactive response.

- ✓ **Advanced Threat Defense:** We configure and manage the Trend Micro Worry-Free XDR Solutions Suite, leveraging industry-leading AI-driven detection to stop threats before they cause damage.
- ✓ **Optimized Security Settings:** Our experts fine-tune configurations based on best practices to maximize protection while minimizing disruptions.
- ✓ **Seamless Endpoint Management:** We proactively identify and resolve endpoint issues, including disconnected or uninstalled agents, to maintain full security coverage.
- ✓ **Instant Threat Response:** Our team rapidly responds to security alerts, addressing unprotected systems and potential Indicators of Attack (IoA) before they escalate.

With our fully managed, always-on security, you get enterprise-level protection without the complexity—so you can focus on running your business with confidence.

Managed Detection & Response – Threat Monitoring, Investigation & Remediation

Trend Micro Worry-Free XDR + ASRM: Secure Endpoints, Email, and Cloud Apps

Trend Micro Worry-Free XDR + ASRM provides comprehensive security across endpoints, email, and cloud applications. With advanced EDR, email gateway protection, and application security for Microsoft 365, Google Workspace, Box, and Dropbox, it defends against evolving threats. Its Attack Surface Risk Management (ASRM) feature proactively identifies vulnerabilities, misconfigurations, and anomalies to strengthen your security posture.

Trend Micro Licenses

	Endpoint Security	Email Gateway Security (SMTP)	Application Security	Attack Surface Risk Management
Security Description	Protect your Windows, Mac, Linux, and Mobile devices with EDR	Inbound and Outbound Email Protection	Protect Microsoft 365 and Teams, Google Workspace, Box, and Dropbox	Detects Vulnerabilities, Misconfiguration, Critical Assets, and Anomalies
Security Features	Anti-Virus & Anti-Malware	Anti-SPAM, Anti-Malware, Anti-Ransomware	Anti-SPAM, Anti-Malware, Anti-Ransomware	Continuous Visibility and Assessment
	Behavior and Predictive Machine Learning	Phishing, BEC, And DLP Protection	Phishing, BEC, And DLP Protection	Discover Attack Surfaces, Assess Risk, and Mitigate Risk
	Web Filtering and IP Reputation Services	Scan Emails Inbound Before They Arrive at Your Inbox	Scan Emails Inbound Before They Arrive at Your Inbox	Discover Assets (User Identities, Devices, Internet Facing Assets, Cloud Assets, and Data)
	Host Firewall and Intrusion Prevention Services	Scan Emails Outbound Sent Outbound by Your Users	Retroactive Scans of Mailboxes	Correlates Security Configurations, Asset Criticality, Vulnerability Severity, and Threat Activity
	Device Control (USB, Bluetooth, WIFI, DVD, etc.)	End-User Access to Their Quarantine Messages and Exceptions Lists	Scan Emails Outbound Before They Arrive to The Recipient	AI-Powered Asset Profiling to Understand Asset Criticality and Risk
	Application Control	Outbound Email Encryption	Scans Cloud Storage and Messaging	Automate, Orchestrate, and Accelerate Response to Risk and Threats
Differentiators	Virtual Vulnerability Protection	Email Continuity for Mail Server Outages	Monitor User Activity	Open XDR, integrates with Trend Micro Sensors and 3rd Party Sources (Firewalls, MFA, SIEMs)
	Data Loss Prevention	Email Recovery to Recover Messages Deleted with Last 14 Days	Detect Suspicious Data Sharing	Cloud Workload: Azure, AWS, and Google Cloud (GPS) to Review Configurations and Evaluate Risk
		Outbound Email Data Loss Prevention	Data Loss Prevention	MS 365 / Entra ID to Review Configurations, Evaluate Risk, and Monitor Suspicious Activity
